

OMPHILE MOLEFE MAANO

Klerksdorp, NW, 2571 | 0722681455 | ommaano.tech@gmail.com

PROFESSIONAL SUMMARY

IT Support Technician and Web Administrator with 2+ years of experience in IT support, website technologies and digital systems. Skilled in HTML5, CSS3, JavaScript, React, WordPress and WooCommerce, with a strong foundation in network support, system maintenance and online content management. Holds an NQF Level 5 qualification in IT System Development and multiple CIW Web certifications.

SKILLS

- Web Technologies — HTML5, CSS3, JavaScript, React | WordPress & WooCommerce
- Website Management — Content, Pages, Blog Posts, Products & Promotions
- Hardware Maintenance & Repair | Desktop & Peripheral Troubleshooting (Windows/macOS)
- System & Network Support — LAN/WAN, TCP/IP | Microsoft Office 365 | Google Workspace
- SEO Basics & Website Optimisation | Website Performance, Security & Uptime Monitoring
- Cloud Fundamentals (AWS) | Hosting, Domains, Backups & Security | IT Asset Management

EXPERIENCE

IT Support Assistant / Digital Printer Operator

Mar 2022 – Jun 2024

Justagz and Labels | Krugersdorp, South Africa

- Operated Roland large-format printing machines to produce labels and printed materials for clients.
- Set up and configured Windows workstations, ensuring staff had reliable access to systems and applications.
- Maintained LAN connectivity for production workstations, minimising downtime and ensuring continuous access to shared resources.
- Provided IT support to staff, diagnosing and resolving hardware, software and connectivity problems efficiently.
- Managed printers from an IT perspective — driver installation, software configuration and troubleshooting.
- Installed and updated software, applying security patches to keep all systems secure and running smoothly.
- Performed routine system backups and data integrity checks, safeguarding critical business information.
- Managed IT asset inventory and maintained accurate records of hardware and supplies.
- Set up new equipment and assisted with hardware installations, reducing setup time across the workplace.

PRACTICAL EXPERIENCE

- React To-Do List App (2025): Built an interactive React app with state management using React Hooks and planned Node.js backend integration.
- Movie Store Web App (2021): Developed a web app with SQL database backend covering data entry, retrieval and management.
- Technical Experience (2020): Configured systems, provided IT support and troubleshoot hardware, software and network issues.

CORE COMPETENCIES

- Problem Solving | Communication | Attention to Detail
- Time Management | Team Collaboration | Willingness to Learn

CERTIFICATIONS

- CIW Web Foundation Associate — Internet fundamentals, networking basics and web technologies
- CIW Web Design Specialist — Web design standards, HTML, CSS and site development
- CIW E-Commerce Specialist — Digital systems, online business and e-commerce fundamentals
- CompTIA A+ (Expected 2026)
- AWS Solutions Architect – Associate (Currently Studying)
